Volume 94 1979

Table of Contents

No. 1 1–320 issued on February 15, 1979
No. 2 321–624 issued on March 1, 1979

623 Corrections

321 Physico-chemical Basis of Ion Transport through Biological Membranes: Ionophores and Ion Channels
Yu. A. Ovchinnikov

Nucleic Acids, Protein Synthesis, and Molecular Genetics

1 A Histone Programme during the Life Cycle of the Sea Urchin
W. F. Brandt, W. N. Strickland, M. Strickland, L. Carlisle, D. Woods, and C. von Holt

41 Ribosome-Protected Fragments from Sindbis 42-S and 26-S RNAs
R. Cancedda and A. J. Shatkin

51 Kinetic Estimation of the Base Sequence Complexity of Poly(A)-Containing mRNA in Ehrlich-Ascites-Tumor Cells and Its Abundance in Nuclear RNA
B. Samal and I. Bekhor

65 The 'DNA-Membrane Complex' of *Escherichia coli* B/r. Its Composition and Properties and the Fate of Nascent and Genome DNA during DNA Synthesis
W. Robertson and D. Watkins

165 The Biosynthesis of Ribulose Bisphosphate Carboxylase. Uncoupling of the Synthesis of the Large and Small Subunits in Isolated Soybean Leaf Cells
R. Barraclough and R. J. Ellis

179 Distribution of Inverted Repeat Sequences in Nuclear DNA from *Physarum polycephalum*
N. Hardman, P. L. Jack, A. J. P. Brown, and A. McLachlan

249 Messenger RNA Competition in Living *Xenopus* Oocytes
F. A. M. Asselsbergs, W. J. van Venrooij, and H. Bloemendal

315 Ribosomal Translocation Assayed by the Matrix-Bound Poly(uridylic acid) Column Technique. Effects of Different Magnesium Concentrations
N. V. Belitsina and A. S. Spirin

393 Translation of Biologically Active Messenger RNA from Human Placenta in *Xenopus* Oocytes
J. Mous, B. Peeters, H. van Bellegem, and W. Rombauts

427 Association of the Prophage P1*ban* Protein with the *dnaB* Protein of *Escherichia coli*. Overproduction of *ban* Protein by a P1*bac crr* Mutant
C. Edelbluth, E. Lanka, W. von der Hude, M. Mikolajczyk, and H. Schuster

437 Localisation of an Endonuclease Specific for Double-Stranded RNA within the Nucleolus and Its Implication in Processing Ribosomal Transcripts
I. Grummt, S. H. Hall, and R. J. Crouch

445 Replication of M13 Duplex DNA in Soluble Extracts of *Escherichia Coli*. Effect of Helix-Destabilising Proteins
B. van Dorp, P. K. Schneck, and W. L. Staudenbauer

451 The Mitochondrial *COB* Region in Yeast Codes for Apocytochrome *b* and Is Mosaic
A. Haid, R. J. Schweyen, H. Bechmann, F. Kaudewitz, M. Solioz, and G. Schatz

477 Translational Fidelity and Specificity of Ribosomes Cleaved by Cloacin DF13
J. C. Twilt, G. P. Overbeek, and J. van Duin

591 Recognition of Messenger RNA in Eukaryotic Protein Synthesis. Equilibrium Studies of the Interaction between Messenger RNA and the Initiation Factor that Binds Methionyl-tRNA$_f$
R. Kaempfer, R. Hollender, H. Soreq, and U. Nudel

601 Purification and Reverse Transcription of the Messenger RNA Coding for the Insect Protein, Calliphorin, Isolated from Larvae of the Blowfly, *Calliphora vicina* R.-D.
A. Alonso, C. N. Flytzanis, U. Schätzle, K. Scheller, and C. E. Sekeris

Protein Chemistry and Structure

119 Limited Proteolysis of the Pyruvate Dehydrogenase Multienzyme Complex of *Escherichia coli*
G. Hale and R. N. Perham

127 Proteolysis of Human Ceruloplasmin. Some Peptide Bonds Are Particularly Susceptible to Proteolytic Attack
K. A. Moshkov, S. Lakatos, J. Hajdu, P. Závodszky, and S. A. Neifakh

199 The Binding of 1-Anilino-8-naphthalene Sulfonate to the Hemocyanin of *Octopus vulgaris*
F. Ricchelli and B. Salvato

223 Crayfish Carboxypeptidase. Affinity Chromatography, Characterization and Amino-Terminal Sequence
R. Zwilling, F. Jakob, H. Bauer, H. Neurath, and D. L. Enfield

307 Retinol-Binding Protein from Human Urine and Its Interaction with Retinol and Prealbumin
G. Fex and B. Hansson

337 Conformational Studies of Neurotoxin II from *Naja naja oxiana*. Selective *N*-Acylation, Circular Dichroism and Nuclear-Magnetic-Resonance Study of Acylation Products
V. I. Tsetlin, A. S. Arseniev, Yu. N. Utkin, A. Z. Gurevich, L. B. Senyavina, V. B. Bystrov, V. T. Ivanov, and Yu. A. Ovchinnikov

375 The Primary Structure of the Coat Protein of the Broad-Host-Range RNA Bacteriophage PRR1
P. Dhaese, J. S. Vandekerckhove, and M. C. van Montagu

531 Chemical Modification of Taipoxin and the Consequences for Phospholipase Activity, Pathophysiology, and Inhibition of High-Affinity Choline Uptake
J. Fohlman, D. Eaker, M. J. Dowdall, R. Lüllmann-Rauch, T. Sjödin, and S. Leander

609 Amino Acid Sequence of Neurotoxin III of the Scorpion *Androctonus australis* Hector
C. Kopeyan, G. Martinez, and H. Rochat

Enzymology

31 Hydrophobic Interactions of Cytochrome *c* Oxidase. Application to the Purification of the Enzyme from Rat Liver Mitochondria
T. Nagasawa, H. Nagasawa-Fujimori, and P. C. Heinrich

135 The Association of the Serotonin-Sensitive Aryl Acylamidase with Acetylcholinesterase in the Monkey Brain
A. Oommen and A. S. Balasubramanian

145 The Enzyme-Bound Copper of Dopamine β-Monooxygenase. Reaction with Copper Chelators, Preparation of the Apoprotein, and Kinetics of the Reconstitution by Added Copper
T. Skotland and T. Ljones

153 Yeast Argininosuccinate Synthetase. Purification; Structural and Kinetic Properties
F. Hilger, J.-P. Simon, and V. Stalon

189 Studies on the Multi-Enzyme Complex of Yeast Fatty-Acid Synthetase. Reversible Dissociation and Isolation of Two Polypeptide Chains
F. Wieland, L. Renner, C. Verfürth, and F. Lynen

207 The Kinetics of Schiff-Base Formation during Reconstitution of D-Serine Apodehydratase from *Escherichia coli* with Pyridoxal 5′-Phosphate
T. A. Reed and K. D. Schnackerz

231 Studies on the Allosteric Properties of Glycogen Synthase I
H. Sølling

243 Quaternary Structure of Higher Plant Glyceraldehyde-3-Phosphate Dehydrogenases
R. Cerff

465 The Formate Dehydrogenase Involved in Electron Transport from Formate to Fumarate in *Vibrio succinogenes*
A. Kröger, E. Winkler, A. Innerhofer, H. Hackenberg, and H. Schägger

485 Spin Transition of Camphor-Bound Cytochrome *P*-450. 1. Lokal pa_H and Electrostatic Interactions
R. Lange and P. Debey

491 Spin Transition of Camphor-Bound Cytochrome *P*-450. 2. Kinetics following Rapid Changes of the Lokal pa_H at Sub-zero Temperatures
R. Lange, G. Hui Bon Hoa, P. Debey, and I. C. Gunsalus

497 Cyclic Nucleotide-Independent Protein Kinases from Rabbit Reticulocytes. Site-Specific Phosphorylation of Casein Variants
P. T. Tuazon, E. W. Bingham, and J. A. Traugh

541 Biosynthesis of Peptidoglycan in *Pseudomonas aeruginosa*. 1. The Incorporation of Peptidoglycan into the Cell Wall
D. Mirelman and Y. Nuchamowitz

549 Biosynthesis of Peptidoglycan in *Pseudomonas aeruginosa*. 2. Mode of Action of β-Lactam Antibiotics
D. Mirelman and Y. Nuchamowitz

557 The Use of Biochemical Solid-Phase Techniques in the Study of Alcohol Dehydrogenase. 1. Some Studies on Subunit Interactions in Alcohol Dehydrogenase with Subunits Covalently Bound to Agarose
L. Andersson and K. Mosbach

565 The Use of Biochemical Solid-Phase Techniques in the Study of Alcohol Dehydrogenase. 2. Selective Carboxymethylation of Bioaffinity-Bound Alcohol Dehydrogenase
L. Andersson and K. Mosbach

573 Investigations on the Activation of Bovine Prochymosin
V. Barkholt Pedersen, K. Asbaek Christensen, and B. Foltmann

Carbohydrates, Lipids and Other Natural Products

19 Lipid Composition of Human Malignant Melanoma Tumors at Various Levels of Malignant Growth
J. Portoukalian, G. Zwingelstein, and J.-F. Doré

59 Immunochemical Studies of Partially Hydrolyzed Lipopolysaccharide from *Fusobacterium nucleatum* Fev1
T. Hofstad and G. Frederiksen

93 Specificity of Diacylglycerol Acyltransferase from Bovine Mammary Gland, Liver and Adipose Tissue towards Acyl-CoA Esters
M. O. Marshall and J. Knudsen

109 Property and Activity of Mycoloyl Esters of Methyl Glucoside and Trehalose. Effect on Mitochondrial Oxidative Phosphorylation Related to Organization of Suspensions and to Acyl-Chain Structures
E. Durand, M. Gillois, J.-F. Tocanne, and G. Laneelle

347 Isolation and Characterization of Phosphorylated Oligosaccharides from α-*N*-Acetylglucosaminidase that Are Recognized by Cell-Surface Receptors
K. von Figura and U. Klein

505 Solution Conformation of Glycosaminoglycans: Assignment of the 300-MHz-^{1}H-Magnetic Resonance Spectra of Chondroitin 4-Sulphate, Chondroitin 6-Sulphate and Hyaluronate, and Investigation of an Alkali-Induced Conformation Change
D. Welti, D. A. Rees, and E. J. Welsh

Physical Biochemistry

297 The Influence of Electrostatic Interaction on the Proton-Binding Behaviour of *myo*-Inositol Hexakisphosphate
E. R. P. Zuiderweg, G. G. M. van Beek, and S. H. de Bruin

523 Metal Ion/Buffer Interactions. Stability of Binary and Ternary Complexes Containing 2-Amino-2(hydroxymethyl)-1,3-propanediol (Tris) and Adenosine 5′-Triphosphate (ATP)
B. E. Fischer, U. K. Häring, R. Tribolet, and H. Sigel

Membranes and Bioenergetics

11 Detergents Linked to Polysaccharides: Preparation and Effects on Membranes and Cells
J. Pitha, K. Kociolek, and M. G. Caron

87 ATP Synthesis and Hydrolysis in Chloroplast Membranes. Differential Inhibition by Antibodies to Chloroplast Coupling Factor 1
V. Shoshan and N. Shavit

99 Surface Charge of Biological Membranes as a Possible Regulator of Membrane-Bound Enzymes
L. Wojtczak and M. J. Nałęcz

215 Kinetic Analysis of the Interaction of the Phosphatidylcholine Exchange Protein with Unilamellar Vesicles and Multilamellar Liposomes
K. W. A. Wirtz, G. Vriend, and J. Westerman

255 Fast Kinetic Studies on the Interaction of a Fluorescent Agonist with the Membrane-Bound Acetylcholine Receptor from *Torpedo marmorata*
T. Heidmann and J.-P. Changeux

281 Fast Kinetic Studies on the Allosteric Interactions between Acetylcholine Receptor and Local Anesthetic Binding Sites
T. Heidmann and J.-P. Changeux

365 The Inhibition of Photosynthetic Electron Transport in Spinach Chloroplasts by Low Osmolarity
W. Lockau

387 Respiratory Control in *Escherichia coli* K12
C. Burstein, L. Tiankova, and A. Kepes

401 Diglyceride Kinase from *Escherichia coli*. Purification in Organic Solvent and Some Properties of the Enzyme
E. Bohnenberger and H. Sandermann, Jr.

515 Glucosamine Itself Mediates Reversible Inhibition of Protein Glycosylation. A Study of Glucosamine Metabolism at Inhibitory Concentrations in Influenza-Virus-Infected Cells
H. U. Koch, R. T. Schwarz, and C. Scholtissek

Cellular Biochemistry and Metabolism

77 Receptor-Mediated Gonadotropin Action in Ovary. Differential Effects of Various Gangliosides and Cholera Enterotoxin on ^{125}I-Choriogonadotropin Binding, Production of Adenosine 3′:5′-Monophosphate and Steroidogenesis in Rat Ovarian Cells
S. Azhar and K. M. J. Menon

355 Bee Venom Neurotoxin (Apamin): Iodine Labeling and Characterization of Binding Sites
E. Habermann and K. Fischer

409 Synthesis and Activation of Asparagine in Asparagine Auxotrophs of *Saccharomyces cerevisiae*
F. Ramos and J.-M. Wiame

419 The Physiological Role of Pyruvate Carboxylation in Hamster Brown Adipose Tissue
B. Cannon and J. Nedergaard

617 Transport and Metabolism of Bromosulfophthalein by Isolated Rat Liver Cells
L. R. Schwarz, K.-H. Summer, and M. Schwenk

Developmental Biochemistry and Immunology

25 Immunological Cross-Reactivity between Electric-Eel Acetylcholinesterase and Rat-Tail-Tendon Collagen
L. Anglister, R. Tarrab-Hazdai, S. Fuchs, and I. Silman

581 Effect of Triamcinolone on Renal and Hepatic Phospho*enol*pyruvate Carboxykinase in the Newborn Rat. Changes in the Rate of Synthesis of the Enzyme and in the Activity of Its Translatable Messenger RNA
D. Mencher and L. Reshef

Indexed in Current Contents
